

PROFESSIONAL AND UNMISTABLE, SIMPLY OHRIGINELL!

OHRIGINELL is a full-service provider active in the field of temporary infrastructure and supply systems.

We see ourselves as an internationally active partner for industry, for the event & entertainment branch and offer support to state bodies as well as the armed forces. As an independent sister company of „Ohratorium Veranstaltungstechnik GmbH“, we have been providing optimised and in particular efficient solutions for the realisation of very different projects in the field of mobile supply systems since 2006.

Wherever you are planning a project, OHRIGINELL is your professional partner from concept to dismantling on land, in the water or in the air. We have the necessary “know-how” to carry out every project punctually and adequately priced on a national or international level. Irrespectively of whether it is indoor or outdoor, in the mountains or on the coast, on large or small surfaces, we have the right concept for you including modern equipment and a powerful team. Challenges are our biggest motivation.

Our service comprises everything from the installation of complete supply systems for feed and waste water, the securing of temporary power supply to the provision of mobile room solutions and barrier systems. By hiring out our extra-ordinary mobile luxury sanitary facilities “OHRIGINELL”, we not only round off our service, but we set new standards at the same time.

OHRIGINELL is always available. On 365 days a year and 24 hours a day, we provide technical support, because service, involvement and willingness to work are fixed elements in our company philosophy.

**OHRIGINELL! We can do it !
Challenge us – you will be delighted !**

If you have any questions, please call us. We are always prepared to listen to you.
